

## Newsletter no.3 - January 2009

Dear colleague and user of the EnergyPLAN software,

You receive this EnergyPLAN Newsletter because you have once downloaded the EnergyPLAN computer model. We send out a newsletter once or twice a year.

If you do not wish to receive such letter, please reply with a NO to this e-mail and we will delete your e-mail address from the list.

### PhD course on Energy System Analysis at Aalborg University in March 2009

A PhD course on Advanced Energy System Analysis on the EnergyPLAN model is offered at Aalborg University in March 2009. The PhD course gives an introduction to advanced energy system analysis using the EnergyPLAN computer model. The course is conducted as a combination of lectures and computer workshops. For more information and registration, please consult the following home page:

[http://adm.aau.dk/fak-tekn/phd/kurser/s5\\_1.htm](http://adm.aau.dk/fak-tekn/phd/kurser/s5_1.htm). The EnergyPLAN model is described here: [www.EnergyPLAN.eu](http://www.EnergyPLAN.eu)

### 5th Dubrovnik Conference on Sustainable Development of Energy, Water and Environment Systems in September/October 2009

Please feel welcome to join the forthcoming 5th Dubrovnik Conference on Sustainable Development of Energy, Water and Environment Systems, which will be held in Dubrovnik - Croatia from September 30 to October 3, 2009. Dubrovnik is situated in the southernmost part of the Republic of Croatia. Founded in the 7th century, Dubrovnik is rich in cultural and historical monuments and is included in the UNESCO World Heritage list. The 5th Dubrovnik Conference on Sustainable Development of Energy, Water and Environment Systems aims at promoting a new strategy for the development of life support systems. This Conference is a new venue in the improvement of quality through the dissemination, exchange and promotion of new ideas for the interdisciplinary, multi-cultural and multi-criteria evaluation of complex systems. The Conference will have a broad rational programme scope, focusing on energy, water and environment as essential elements needed for human life. Further details (important dates, conference fee, accommodation, contact addresses, etc.) can be found on the web site: <http://www.sdewes.fsb.hr/>

The 5<sup>th</sup> Dubrovnik Conference will include a special session of invited papers "On the way to 100% Renewable Energy Systems" including the presentation of energy system analysis studies. If you wish to receive an invitation, please contact Professor Henrik Lund: [lund@plan.aau.dk](mailto:lund@plan.aau.dk)

**Conference on Joint actions on Climate Change prior to the upcoming COP-15 meeting in Denmark 2009**

Please feel welcome to participate in the Conference on Joint actions on Climate Change which takes place in Aalborg, Denmark, in June 2009. The Conference is a collaboration bringing together four conferences in the field: European Roundtable for Sustainable Consumption and Production; The Greening of Industry Network; Nordic Life Cycle Association, and Euro Sustainability. After 15 years of separate growth, the time has come to join forces in order to bring action and consensus on solutions. The Conference welcomes all stakeholders involved in developing solutions to climate change, including Governments, industry, retailers, researchers as well as NGOs, consumer organisations and the financial sector. Bringing together different stakeholders and research disciplines will help fostering a fruitful dialogue and bridging gaps in views and positions.

Among others, the conference includes a PhD seminar on Sustainable Energy Cities. For more information, please consult: [www.jaocc.net](http://www.jaocc.net)

Best regards

Professor Henrik Lund  
Managing Assistant Mette Reiche Sørensen
